

I am writing to register my complaint of Sinclair Broadcast Group in their plan to use and abuse our free air waves to promote a political position that smears John Kerry. The FCC should intercede immediately to prevent this blatant interference in the political process in America. Absent that, as a political broadcast, Sinclair is required under the law to provide equal time to John Kerry. Sinclair should therefore follow its 2-hour movie broadcast with the movie 'Up River' to meet this legal requirement.

Sinclair's flagrant snubbing of the law of the land, and its obvious political position, guised as news, does a disservice to our country, and flies in the face of the authority of the FCC. Please take action now to prevent this broadcast. Thank you.
